Providing convenient recycling services to builders and contractors.

“Our customer-oriented recycling service is the simplest and easiest way to remove and recycle your construction rubbish.”

SRF Gives Builders a Competitive Edge

Raise Your Environmental Credentials

Being part of the movement for greener buildings helps both your business and the environment. By recycling your construction waste, you can adopt a central principal of green building practices.

We Make Recycling Easy and Convenient

Setting up a recycling system on site can be time consuming and cumbersome. Our simple approach makes it easy.

- No sorting of waste necessary
- No need for separation bins
- No need for an onsite construction waste manager
- Just one phone call and we'll take away your waste and recycle it.

Recycling Waste Makes Dollars and Sense

Recycling construction waste can result in cost savings:

- Using a proactive approach reduces the need for more regulations
- Lower transport and materials costs
- Helps you comply with waste management requirements

Prompt, Courteous and Convenient Waste Recycling Solutions

REUSE,
REDUCE,
RECYCLE

CONVENIENT, RELIABLE WASTE REMOVAL AND RECYCLING.

SRF Earthmoving is a full service earthmoving, Bobcat and excavation company that recently expanded to provide recycling services to the building and contractor industry. Started in 1996 to respond to the need for high quality Bobcat operations, SRF operations now cover all aspects of construction industry waste removal services.

Why Recycle Construction Waste?

Costs for disposing to landfill have risen over 300 percent, as a way to encourage alternatives to landfill use. With 2 million tonnes of construction and demolition waste ending up in WA landfills each year, higher fees and more costly regulations are on the horizon. Recycling construction waste helps reverse this trend.

The Easiest Way to Recycle Your Waste.

Our easy to use recycling service takes the burden of sorting and collecting your construction waste away from you and your construction crew.

Dealing With Rubbish Doesn't Mean Treating You Like Dirt.

Because satisfied customers is our number one priority, we have only experienced and expert operators on our team. They understand the importance of courtesy, professional behavior and are expert problem solvers who will be responsive to your needs.

Why Recycle Construction Waste

- Boost your environmental reputation
- Reduce the need for costly regulations
- Increase cost savings
- Reduce pressure on landfill space
- Help save the earth

What We Recycle

- Bricks
- Concrete
- Sand
- Wood
- Metal
- Roof Tiles
- Tiles
- Cardboard
- Paper Products and Plastics

How We Recycle

Just call us and we'll come pick up your construction waste. Our facility is also available for materials to be dropped off.

Servicing All Metropolitan Areas

Conveniently located in the southeastern suburbs of Perth, we primarily serve the south and central metro areas.

Here's how:

- Call us to arrange pick up of your construction rubbish.
- We'll collect it, sort it, and recycle it at our plant. That's it!
